SUMMARY

Final-year Bachelor of Software Engineering (Information Systems) graduate from Universiti Kebangsaan Malaysia (UKM, CGPA: 3.25), with hands-on internship experience building and maintaining PHP web systems at Sarawak Information Systems Sdn Bhd (SAINS), a government-linked ICT company serving Sarawak. Contributed to an AI-enhanced enterprise recruitment platform and government citizen services systems. Developed a real-time environmental monitoring mobile application (SmartAirIQ) using Flutter and Firebase as a solo project. Skilled in full-stack web development, mobile development, UI/UX design, and system analysis. Currently pursuing AWS Certified Solutions Architect – Associate certification. Open to roles in software engineering, web development, or cybersecurity.

TECHNICAL SKILLS

Programming Languages: PHP, Java, JavaScript, TypeScript, SQL, C++, Dart

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Mobile Development: Android Studio, Flutter

Backend & Database: Laravel, Firebase, MySQL, REST API Integration

Cloud & Version Control: AWS (Solutions Architect Associate - In Progress), Git, GitHub

UI/UX & Design: Figma (Advanced), Canva (Advanced)

Tools: VS Code, DaVinci Resolve, Microsoft Office Suite

WORKING EXPERIENCES

Junior PHP Developer (Intern)

Sep 2025 - Jan 2026

Sarawak Information Systems Sdn. Bhd. (SAINS) | Kuching, Sarawak

- Contributed to development and maintenance of two enterprise-level PHP systems: a government citizen services portal and an internal HR/admin management system serving Sarawak state government operations.
- Supported an AI-enhanced recruitment platform: fixing UAT issues, investigating AI feature behavior, and improving API integrations for automated resume screening and interview question generation.
- Built and deployed new front-end UI pages and form components, improving data entry workflows for government staff and public-facing portal users.
- Integrated third-party APIs into existing systems, enabling automated data exchange between government services.
- Performed SQL database queries, schema updates, and data validation to maintain data integrity across interconnected system modules.
- Operated in a structured team environment with supervisor code review before deployment, contributing to production-grade government software.

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, REST APIs, AI Integration

Cashier / Event Operations Assistant (Part-Time)

Mar 2024 - Apr 2025

UKM Esport Arena

- Managed POS operations and coordinated logistics for esports tournaments while maintaining full-time studies at UKM.

PROJECT EXPERIENCES

SmartAirIQ - Smart Environmental Monitoring System

Oct 2024 - May 2025

Flutter | Firebase | Google Maps API | Air Quality API | Dart

- Designed and developed a cross-platform mobile application using Flutter to monitor and visualize real-time air quality data, with live environmental readings and location-based monitoring.
- Integrated Google Maps API for location visualization and a third-party Air Quality API for live pollution data, delivering real-world environmental information through a clean mobile interface.
- Implemented Firebase as the backend for real-time data synchronization, enabling always-current readings without manual refresh.
- Architected the full application independently from UI/UX design in Figma through to Flutter implementation and Firebase configuration.
- Implemented alert logic to notify users when air quality exceeded safe thresholds, improving response to environmental hazards.

Solo Developer | Final Year Project (FYP)

- Designed and built a fully responsive portfolio website using Next.js and TypeScript, showcasing projects, skills, and experience.
- Deployed on Vercel with continuous deployment from GitHub, demonstrating modern DevOps practices and version control workflow.
- Implemented mobile-first design with Tailwind CSS and a detailed project case study section.

EDUCATION

Universiti Kebangsaan Malaysia

Bangi | 2022 - Present

Bachelor of Software Engineering (Information System) with Honour

CGPA: 3.25

Dean's List - Semester 2 (2024/2025) | Semester 1 (2025/2026)

Kolej Matrikulasi Selangor

Banting | 2021 - 2022

Matriculation Program in Computer Science

CGPA: 3.75

LEADERSHIP & ACTIVITIES

- Dean's List, Universiti Kebangsaan Malaysia - Semester 2, 2024/2025 (GPA: 3.89)
- Dean's List, Universiti Kebangsaan Malaysia - Semester 1, 2025/2026 (GPA: 3.84)
- Gold Medal Recipient, Training of Trainers Program (Jun 2024)
- Facilitator, Minggu Apresiasi Watan Kolej Pendeta Za'ba (Oct 2024)
- Cabaran DJI Robomaster (Jun 2023) - Robotics & Technology Competition
- Community Service: Smart Study Kits Perwira, Mobiliti Orang Asli Za'ba, Misi Bantuan Za'ba (2023–2024)
